RESPONSE TO ELECTION REQUIREMENT

Sir:

In the Office action dated April 10, 2006, the Examiner required an election of species under 35 U.S.C. § 121 prior to an examination on the merits of application. The separate species of the claimed invention as identified by the Examiner are as follows:

- A) A shirt garment - Claims 1-8;
- B) A pant garment - Claims 9-16; and
- C) A dress and gown - Claims 17-24.

Application No. : 10/721,238
Art Unit : 3765

Attorney Docket No. 23861.00
Confirmation No. 6125

In compliance with the Examiner's requirement, Applicant provisionally elects with traverse for further prosecution the shirt garment embodiment designated as species A. The Examiner has indicated that Claims 1-8 are readable on the elected species.

Notwithstanding the propriety of the election requirement for examination purposes, Applicant contends that she should be entitled to a consideration of a reasonable number related embodiments falling within the scope of a generic inventive concept, namely, clothing for Alzheimer's patients. Moreover, it would appear that a search and examination of the entire application could be accomplished without a serious burden on the Examiner since the multiple embodiments identified of record would seemingly encompass a common field of search.

Accordingly, it is respectfully requested that the Examiner withdraw the election requirement, and issue an action on the merits of all the embodiments presently in the case. Alternatively, should the Examiner maintain the requirement and make it final, Applicant awaits a complete action on the merits of the elected subject matter.

Respectfully submitted,

Dolph H. Torrence
